

Muhammad Ameer Hamza

Flutter Developer | Cross-Platform Mobile Apps (iOS & Android)

+923081736926 • [Email](#) • [Portfolio](#) • [Github](#) • Lahore, Pakistan

PROFESSIONAL SUMMARY

Results-driven Flutter Developer building scalable, high-performance cross-platform mobile applications for iOS and Android. Proficient in Dart, Flutter, Firebase, Supabase, and RESTful API integration. Passionate about clean architecture (MVVM), pixel-perfect UI, and delivering seamless user experiences.

PROFESSIONAL EXPERIENCE

Flutter Developer (Freelance) | Fiverr — Remote

Aug 2024 – Present

- Designed and delivered cross-platform mobile applications for clients targeting iOS and Android.
- Integrated RESTful APIs, Firebase (Auth, Firestore, FCM) and Supabase backends for full-featured apps.
- Implemented pixel-perfect UI designs translated from Figma mockups into Flutter widgets.
- Managed app state using Provider and GetX; maintained clean, well-documented codebases via Git/GitHub.

App Development Intern (Flutter) | CodeAlpha — Remote

Jun 2025 – Jul 2025

- Developed cross-platform mobile applications using Flutter and Dart for iOS and Android.
- Designed responsive UI screens, implemented navigation flows, and integrated REST APIs and Firebase services.
- Built internship projects including a To-Do App, Weather App, Expense Tracker, and E-Commerce App.
- Performed debugging, testing, and performance optimization to ensure smooth app functionality.

KEY PROJECTS

Flutter TV Streaming App & Admin Panel | Flutter, Firebase, FCM, Provider

- Built a feature-rich TV streaming app with intuitive UI, responsive design, and smooth performance across devices.
- Integrated Firebase Cloud Messaging (FCM) for push notifications.
- Developed a complete Flutter admin panel to manage content, categories, and user engagement.

Flutter Movie Application | Flutter, GetX, MVVM, REST API

- Developed a full-cycle movie app using GetX state management and MVVM architecture with both frontend and backend utilities.

Fitness Application | Flutter, SQLite, Custom Widgets

- Integrated SQLite for offline data persistence of user progress and activity records.
- Built a goal-based tracking system with reusable custom widgets for scalable UI architecture.

TECHNICAL SKILLS

Mobile: Flutter, Dart

State Management: Provider, GetX, Bloc / Cubit, Riverpod

Backend / Database: Firebase (Auth, Firestore, FCM, Analytics), Supabase (PostgreSQL), SQLite, Hive

APIs & Tools: RESTful APIs (Dio / HTTP), JSON, Postman, Android Studio, VS Code

Version Control & Languages: Git, GitHub, Dart

Architecture & Development Practices: Clean Architecture(MVVM), Dependency Injection, Responsive Design

EDUCATION

BS Computer Science — University of Engineering & Technology (UET), Taxila

2022 – 2026
